Note: Amounts may not always add due to rounding. More recently, in fiscal years 2007 and 2008, DOEs oil and gas R and D investments have generally increased from 2006 levels, primarily as a result of funding from EAct 2005, section 999. During these years, DOE was appropriated a total of about 161 million for oil and gas R and D activities, which includes 100 million provided by EAct 2005, section 12 999. Overall, since 1997, DOEs funds have supported hundreds of near-term projects, as well as research that is longer term and high risk, whereas industry R and D focuses primarily on near-term challenges. DOE uses its non-EAct 2005 funds for both near- and longer-term R and D projects, including...
