

## Forces Motion Student Journal: From High-Speed Jets to Wind-Up Toys (Paperback)

By Tom DeRosa, Carolyn Reeves

Master Books, United States, 2009. Paperback. Book Condition: New. Student. 272 x 216 mm. Language: English . Brand New Book. A delightful first look at 3rd to 6th grade-level physical science! Complete with fun and easy to do activities, the book explains important concepts in easy to understand language and then helps to reinforce the educational material with activities that explore the world around us. From friction to speed and much more, this new elementary series is both creation-science based and built on National Science standards. A must-have new series from the Creation Science Institute! The Student Journal is designed not only as an interactive platform for recording the results of the activities in the main book but also provides additional information, important reinforcement for key concepts, and comprehensive skill tests.

### Reviews

*This book will never be easy to start on looking at but quite entertaining to read. It is actually packed with wisdom and knowledge It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- Ms. Missouri Satterfield DVM

*Undoubtedly, this is the best function by any writer. This really is for those who statte there was not a really worth reading. Its been written in an exceptionally basic way which is merely right after i finished reading through this book by which really transformed me, change the way i really believe.*

-- Dr. Deonte Hammes DDS
